NCLC's 50 Greatest Hits

Throughout our 50th anniversary year, NCLC is highlighting some of our most important accomplishments over five decades of advocacy for consumer rights and economic justice. This collection of hits is sequenced neither by date or relative importance, but every one has had an important impact on the development of consumer law and the protection of vulnerable consumers. **NCLC is grateful to all of the supporters and consumer champions who played a role in making these accomplishments possible!**
